The application has been amended as follows: In claim 3 line 9, --wherein each said second end is selectively movable diametrically relative to said wheel in order to adjust a crank diameter defined between each said second end; and wherein each foot link moves in a non-linear closed path—has been inserted after "said frame".

Claims 6 and 7 have been canceled.

2. The following is an examiner's statement of reasons for allowance: The prior art of record fails to show or teach applicant's claimed exercise apparatus having at least three rollers mounted on a frame for rotatably retaining a wheel therebetween; left and right foot links each having a first end rotatably connected to a respective side of the wheel and each having second ends movably connected to the frame; wherein each second end is selectively movable diametrically relative to the wheel in order to adjust a crank diameter defined between each second end; and wherein each foot link moves in a non-linear closed path.
